NEW TEAM MEMBER

Ethan Edwards, P.E. has recently joined the Hartwell team as the **Oklahoma Territory Manager** in the Tulsa office. Ethan comes to Hartwell from the City of Broken Arrow, OK where he served as the Director of Engineering & Construction. Prior to that role, Ethan worked as a consulting engineer and sales representative in the water and wastewater industry. Ethan is a graduate of Oklahoma State University with a B.S. in Civil Engineering and is a registered Professional Engineer. His focus will be on working with consulting engineers and end users in the Oklahoma market. Please join us in welcoming Ethan to the Hartwell team!

TEXAS WATER 2024

More than thirty of our manufacturers will be exhibiting with us this year in Fort Worth for Texas Water 2024, April 9 - April 11. Please try to attend and see the latest in technology on display. We'll see you there!

MORE SP CLARIFIERS FOR OKLAHOMA

Oklahoma continues to take advantage of the features and benefits of the **SP** (formerly called **SuperPulsator**) high rate clarifiers for water treatment plants manufactured by **Veolia WTS Systems**. Some of our newest projects include:

Wagoner County RWD No. 5 WTP

Engineer: **HUB Engineers** (Muskogee)
Contractor: **Daris Contractors** (Owasso)

City of Jay WTP

Engineer: **HUB Engineers** (Muskogee)
Contractor: **BRANCO Enterprises** (Neosho, MO)

LOBELINE™

We are pleased to announce that Hartwell is the new representative for **Swaby Lobeline** in Texas and Oklahoma. **Swaby Lobeline** is the leading manufacturer of rotary lobe pumps for sludge and other applications in water and wastewater treatment. Their pumps are designed for easy maintenance and durability and are manufactured in the USA. Feel free to visit their website at www.lobelinepump.com or contact us for more information.

INTRODUCING SOME NEW LINES

In addition, Hartwell is pleased to announce that we are the new representative for **Pinnacle Ozone Solutions** in the state of Texas. **Pinnacle** is a leading manufacturer of ozone generation systems with an established reputation for energy efficient, reliable ozone systems. Their modular **QuadBlock®** ozone cells offer the benefit of system expandability within a minimal footprint. To learn more about Pinnacle Ozone, please visit their website at www.pinnacleozone.com or contact your local Hartwell office.

AQUA-AEROBIC 2024 SEMINAR SCHEDULE

Many of our clients and engineers from Texas and Oklahoma take advantage of the Aqua-Aerobic Technical Seminars each year. This is a great educational opportunity so please consider attending a technical, non-commercial session held at their Rockford, Illinois headquarters, just outside of Chicago. There are a total of six seminars offered this year as follows:

AQUA-AEROBIC
SYSTEMS, INC.
A Metawater Company

April 17-19	Topic: AquaNereda® Aerobic Granular Sludge (2 Day Seminar)
May 22-23	Topic: Filtration Technologies
July 17-18	Topic: Biological Processes
August 7-8	Topic: PFAS Removal Technology
August 21-23	Topic: AquaNereda® Aerobic Granular Sludge (2 Day Seminar)
September 18-20	Topic: Innovative Technologies (2 Day Seminar held in Kansas City)

You will also have the opportunity to visit the Aqua-Aerobic Research & Technology Center located at the Four Rivers Sanitation Authority's 40 MGD WWTP located in Rockford. The remote seminar in Kansas City will include tours of the Tomahawk, KS and Wolcott, KS WWTP's. Educational credits are provided for operators and engineers. There is No Cost for attendees for either the seminar or associated travel. Please contact us for additional information.
